CONTENTS

Calorimetry and X-ray diffraction investigations of the binary system neopentylglycol–pentaerythritol
M. Teisseire and J. Guion (Valbonne, France), N.B. Chanh and Y. Haget (Talence, France), M.A. Cuevas-Diarte, D. Lopez and J. Muntasell (Barcelona, Spain) 1

Structural modification on heat treatment of γ-MnO_2
F. Tedjar (Setif, Algeria) and J. Guitton (St-Martin d'Heres, France) 13

The surface of an ideal crystal of alunite in mathematical close-up. Part I. Qualities and surface concentrations of defect ions
B. Andruszkiewicz and J. Pysiak (Płock, Poland) 23

The surface of an ideal crystal of alunite in mathematical close-up. Part II. Localization of surface ions and a map of local electrical charges of the surfaces $10\bar{1}1$
B. Andruszkiewicz (Płock, Poland) 35

Kinetics and mechanism of dehydration of natrolite and its potassium exchanged form
R. Otsuka, A. Yamazaki and K. Kato (Tokyo, Japan) 45

Thermal stability and degradation of some chemically synthesized polypyrrole complexes
E.T. Kang, K.G. Neoh, Y.K. Ong, K.L. Tan and B.T.G. Tan (Kent Ridge, Singapore) 57

Thermal decomposition of energetic materials. Part 51. Kinetics of weight loss from nitrate ester polymers at low heating rates
J.K. Chen and T.B. Brill (Newark, DE, USA) 71

Gibbs energies of transfer of individual ions from water into tetrahydrofuran and its aqueous mixtures
M.M. Elsemongy (Shihar, Saudi Arabia) and A.A. Abdel-Khalek (Beni-Suef City, Egypt) 79

Gibbs free energies of transfer of individual ions from water into water–urea mixtures
M.M. Elsemongy (Shihar, Saudi Arabia) and A.A. Abdel-Khalek (Beni-Suef City, Egypt) 95

A computational evaluation of the gas-phase water dimerisation equilibrium constant in the low temperature region with particular attention to the interpretation of Giotto and Vega flyby observations of the coma of Comet Halley
Z. Slanina (Mainz, FRG) and J.-F. Crifo (Verrières Le Buisson, France) 109

Conformers of 1,2-difluoroethane: their thermodynamic interplay and the extremum temperature course of some terms
Z. Slanina (Mainz, FRG) 119

Simultaneous measurement of excess enthalpies and solution densities in a flow calorimeter
W.K. Tolley, R.M. Izatt and J.L. Oscarson (Provo, UT, USA) 127

Thermochemistry of pyridine- and picoline-*N*-oxide complexes of arsenic trihalides
P.O. Dunstan (São Paulo, Brazil) 143

Analysis of a model system for the interaction between DNA and histone H1
A. Kagemoto, H. Irie, M. Aramata and Y. Baba (Osaka, Japan) 155

Measurement of thermophysical properties of KNO_3
S. Taha and G. Attia (Giza, Egypt), A.M. Abousehly and A.A. El-Sharkawy (Cairo, Egypt) .. 167

A study of the thermal effects observed in DTA. Part 2. The influence of sample and reference system parameters on a typical DTA curve
F.W. Wilburn and D. Dollimore (Toledo, OH, USA) and J.S. Crighton (Leeds, UK) 173

A study of the thermal effects observed in DTA. Part 3. The influence of a holder around the sample and reference materials on a typical DTA curve
F.W. Wilburn and D. Dollimore (Toledo, OH, USA) and J.S. Crighton (Leeds, UK) 191

Thermal analysis of dihydrated sodium orthophosphate crystals in the temperature range 25–600 °C
A. Abdel-Kader and S.I. Saleh (Menoufia, Egypt) 203

Cobalt(III) aminoacidate bis-phenanthroline chlorides: preparation and characterisation by thermal analysis and other analytical methods
U. Biader Ceipidor (Potenza, Italy), R. Bucci, A.M. Girelli and A.D. Magri' (Rome, Italy) ... 215

Thermodynamics of molecular interactions in mixtures of 1,2-dibromoethane and xylenes at 298.15 K
K.C. Kalra, K.C. Singh and D.C. Spah (Rohtak, India) 227

Thermodynamics of liquid mixtures studied by light scattering
A. Qin, A.-A.A Abdel-Azim, W. Cheng and P. Munk (Austin, TX, USA) 237
Thermal decomposition kinetics. Part XVII. Kinetics and mechanism of thermal decomposition of bis(ethylenediamine)copper(II) halide monohydrate
S. Mathew, C.G.R. Nair and K.N. Ninan (Trivandrum, India) 253
The effect of doping on the thermal decomposition of sodium bromate
S.M.K. Nair and P.D. Jacob (Kerala, India) 269
Thermal behaviour and compatibility of polyurethane PCL/BDNPA/F and PCL/TMETN blends
S.-M. Shen, F.-M. Chang, J.-C. Hu and A.-L. Leu (Tachi, Taiwan) 277
Thermal investigation and stereochemical studies of some cyclic ligand complexes of copper(II) and cadmium(II) in the solid state
R.K.B. Singh and S. Mitra (Imphal, India) 289
The hydrophobic effect in aqueous solutions of positional isomers of alkan-*n*-ols. A calorimetric study at 298.15 K
G. Castronuovo, R.P. Dario and V. Elia (Naples, Italy) 305
On the thermal characterization of the system sulfur–tetracyanoethylene
V. Berbenni, A. Marini, V. Massarotti, D. Capsoni and R. Riccardi (Pavia, Italy), C. Margheritis (Messina, Italy) and M. Conte (Rome, Italy) 315
Thermal behaviour and firing characteristics of $Zr/KClO_4$ primer mixture containing different particle sizes of zirconium
J.-S. Lee, L.-K. Lin, P.-J. Huang, S.-Y. Chen, P.-J. Ch'en and S.-S. Chang (Long-Tan, Taiwan) and C.-W. Huang (Chung-Li, Taiwan) 329

Note
Determination of the thermodynamic parameters of some slightly soluble selenites
G. Gospodinov, Yu. Slavcheva and E. Popova (Bourgas, Bulgaria) 337
